

INDIAN ARTHROPLASTY ASSOCIATION

SOUTH REGIONAL MEETING CME

Dear Friends and colleagues, I would like to invite you for the Indian Arthroplasty Association - South Regional Meeting CME at Vellore on June 24th and 25th 2023. During these two days, The symposium will focus in advocating the practical surgical problems with emphasis on basics and principles of hip and knee arthroplasty with practical tricks and tips in hip and knee Arthroplasty surgeries. This program will help the delegates to get better insights into decision making in arthroplasty through Case based discussion, hands on X-ray Templating session, group discussions with interactive sessions for better understanding. Saw bone work stations with small groups with eminent national faculties across India would provide avenues for better practical understanding of hip and knee arthroplasty concepts We have personally invited upcoming surgeons from nearby medical colleges in Vellore, Ranipet, Thiruvallur, Kancheepuram, Chengalpattu, Thiruvanamalai and Krishnagiri districts for their active participation and better dissemination of basic hip and knee arthroplasty concepts. Looking forward to meeting you all for a fruitful meeting with interactive sessions for a good teaching learning experience.

Course Organizer
Dr. ANIL THOMAS OOMMEN
Prof. Unit Head Ortho II
